Multiple calls were placed to Forestry due to an increase in activity and smoke. Helicopter 117AM was launched from Palmer, and upon arrival reported that it had progressed up stream above the lake and had grown approximately an additional .2 acres. The pocket on the south side was still held up in the rocks, and spread potential was low to the south. The new growth area had some spruce mixed into the fuels and due to predicted weather, Helicopter 374PA later responded to utilize the ship for bucket work and to suppress the new growth area of the fire to prevent any spread potential.
