Increased fire behavior observed over Swan Lake fire on the evening of 8/16. Gusty winds from the southwest led to movement on the southeastern edge of the fire in the Mystery Creek and Thurmond drainages. Moderate fire behavior was also observed on the northern edge of the fire. Tanker drops were utilized on the northern edge of the fire to protect previously identified values at risk. Repair work was continued near the Sterling Highway corridor. Plans for tomorrow's shift will include using aerial resources to monitor and check fire spread where needed. Both Skyline and Fuller Lake Trails were closed 8/16.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
