Crews continued building and securing fireline today. Additional resources will fly in to the fire Sunday to begin mop up and aid in securing fire edge.

Predicted Weather: 24h-Winds Sunday will prevail from the south-southwest as a weak low pressure center passes to the south over the Gulf of Alaska. This will produce smoke transport towards the north-northeast. Increasing clouds are expected through the day with some afternoon cumulus development possible across the mountains. A slight chance for a few light and isolated showers is possible but wetting rains are unlikely.

Jackpots of fuels on the interior of the fire and adjacent to structures are causing flare ups which reduce the amount of time resources have to secure the fires perimeter. As the amount of trees that continue to fall over increases, the amount of attention the resulting jackpots of fuels require from suppression resources will increase. Resistance to control and extinguishment are extreme due to extended drought conditions. Resources will continue to pursue containment of the incident and protect values at risk.

Fire activity did increase with clear skies and warmer temperatures. Tomorrow will be similar to today. In Division A, crews will grid going from H-30 north to H-10. Crews will continue south from H-30 with line construction and securing. The excavators will continue to work further south to the south A/Z break. In Division Z, crews will grid between Gannett Spike and H-10, and work to plumb between Gannett and TCC spikes. In Div L, crews hope to finish prepping down to three miles along the east side of Red Shirt Lake.

Fire continued spread south of the Sterling highway and across Skilak road today. Resources are re-evaluating and will continue to secure fire edges in an effort to prevent fire spread towards Cooper Landing and Sterling. Resources used dozers and crews to establish and secure lines between Sterling Highway and Skilak road. Utilizing shuttle boats, crews continued securing the fire edge south of the Kenai River.

Predicted Weather:

24h-Winds Sunday will prevail from the south-southwest as a weak low pressure center passes to the south over the Gulf of Alaska. This will produce smoke transport towards the north-northeast. Increasing clouds are expected through the day with some afternoon cumulus development possible across the mountains. A slight chance for a few light and isolated showers is possible but wetting rains are unlikely.
