Crews continued building and securing fireline today. Additional resources arrived today to begin mop-up and aid in securing fire edge.

Predicted Weather:

24 h - Wind direction will now shift back toward the north while wind speeds remain relatively light. This will bring a return of smoke down around the communities of the Kenai Peninsula. A slight chance for a few light and isolated showers continue to be possible but wetting rains are unlikely.

Higher afternoon winds caused an increase in interior activity. Jackpots of fuels in the interior of the fire and adjacent to structures are causing flare-ups that reduce the amount of time resources can use to secure the fire's perimeter. As the amount of trees that continue to fall increases, the amount of attention the resulting jackpots of fuels require from suppression resources will increase. Resistance to control and extinguishment are extreme due to drought conditions. Resources will continue to pursue containment of the incident and protect values at risk. Control lines will be secured by hand crews with adequate supplies of water for extinguishment.

Fire activity remained similar to yesterday with moderately warm temperatures. Excavators made great progress and saved crews probably 3-4 days of work. They have tied in with the crews and are being reassigned to a fire with higher needs. The acres reduced due to more accurate mapping. Acreage may yet still increase if more spots are located outside of mapped areas.

Fire continued spread south of the Sterling Highway and across Skilak road. Traffic was delayed due to smoke on the Sterling Highway today. Fire resources have begun burnout operations south of the highway to help reduce future impacts to the roadway. Resources are evaluating and prepping structures and will continue to secure fire edges in an effort to prevent fire spread towards Cooper Landing and Sterling. Resources used dozers and crews to establish and secure lines between Sterling Highway and Skilak road. Utilizing shuttle boats, crews continued securing the fire edge south of Sterling Highway. 24 hour weather: Wind direction will now shift back toward the north while wind speeds remain relatively light. This will bring a return of smoke down around the communities of the Kenai Peninsula. A slight chance for a few light isolated showers continue to be possible but wetting rains unlikely.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
