Crews continued securing lines and mopping up.

Predicted Weather: Tuesday - the recent low pressure system that brought weather to the Peninsula over the last few days is weakening and moving out of the area. Weak high pressure will preside over the Kenai for the next few days. This pattern will bring a return of light west and southwest winds back to the fire area with near normal min RH values (45%). Partly cloudy skies and only the occasional light afternoon shower is expected.

Perimeter control and interior containment has reduced the potential for fire spread. Extremely dry duff is burning, leaving large ash pits and very unstable trees in the fire area. The ash pits are impeding mop up operations due to their depth and the hazard they pose to firefighting personnel. The unstable trees are impeding mop-up operations and also pose a hazard to firefighting personnel. Trees, green and fire-weakened, are falling without significant wind, creating jackpots of fuel on existing hot spots. Throughout the fire crews and equipment will continue to secure around homes, roadways, and in the Parks Highway corridor. Crews will continue to secure the perimeter on the east flank and much of it is in patrol and monitor status. Water handling equipment will be backhauled from unaffected subdivisions to the south and east of the fire. There was a transition from the Alaska Green Team to the Northern Rockies Team.

Continue securing fire lines along the southwest and southeast portions of the fire to stop spread to the west toward Sterling and east toward Cooper Landing. Hand crews continue constructing and securing fire lines south of the Kenai River into the Kenai Wilderness to protect the Russian River recreation Area and Cooper Landing. Crews will secure fire line along the Resurrection Trail corridor. Structure group will continue working with local resources to staff and monitor fire lines adjacent to Cooper Landing. Continue to assist Homer Electric employees conducting damage assessments and Chugach electric for residential lines in Cooper Landing. Utilize aviation resource where possible to help secure fire edges and mop up hot spots.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
