Multiple calls were received at Forestry about a lightning strike near Olnes pond. Forestry engines and helicopter responded. The fire was spreading rapidly towards a subdivision so additional resources were ordered. Two loads of jumpers, two tankers, six fire bosses, two CI-415 scoopers, a Blackhawk, and Forestry helicopter worked on the fire from the air while five crews and various engines and heavy equipment worked on the fire from the ground. Old Murphy Dome road was closed to the public so fire fighters could safely work. Late in the evening the fire received some precipitation. The plan for the next operational period is to focus on spread toward the south where the subdivision is located.

The southern and western edges of the fire continue to hold along the Dalton Highway, Trans-Alaska Pipeline and the Hovercraft Road to the Yukon River. Additional work is needed to ensure this area remains secure through the 6/14 Red Flag Warning and predicted thunderstorms. The northern edge of the fire has spread to the Yukon River and Native Allotments and structures have received protection. The eastern edge of the fire has been the most active portion and is continuing to spread. The eastern edge has burned into the 2004 Waldron Creek burn scar where fuels are receptive to fire spread but fire activity has decreased. Options for limiting fire spread and protecting additional values including Native Allotments, and the community of Stevens Village to the east were evaluated and discussed with Agency Administrators.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
