The fire burned actively throughout the night and had backed down into the Chena Hot Springs resort by morning. Crews utilized helicopters to cool and secure the edge near resort structures. Cooler weather and some precipitation moderated fire behavior in the afternoon. Structure protection equipment was installed and tested from milepost 52 to 48 or Chena Hot Springs Rd. Structure assessment and protection preparations continued along the Middle Fork River.

195 Name: **Dry Creek** Cause: **Lightning**

With Chena Interagency Hotshot Crew demobilizing today, the North Star Fire Crew have taken over point protection on allotments near the fire perimeter. With cooler and wetter conditions fire behavior has moderated to creeping and smoldering. Smokejumpers continue to patrol the Zitziana River via boat to ensure the fire does not jump across.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
