H-120SH did another recon of the fire perimeter. Box 33 near Monument Creek made a run to the ridgetop, multiple active smokes were found. The southeast-eastern portion progressed down to the southwestern portion of the river. Heavy smoke prevented a flyover in that area. Near H-40 fire progressed down all sides of the base of the mining camp where the helicopter did some bucketwork for threatened structures. A structure on trespass land was threatened near R-3. IC will evaluate fire progress and need to reinstall pumps for structural protection for the next operational period.

Cultas Creek

Personnel on the fire saw an increase in fire behavior today. The fire area was under a Red Flag Warning today, with shifting winds and high temperatures observed. The fire perimeter burned up to a trigger point for additional action, and J-90 deployed 4 smokejumpers to assist in cabin protection. Firefighters will continue cabin protection and reassess potential values at risk.
These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
