Weather over the fire was mostly cloudy with high temperatures in the 60s, and shifting winds becoming northerly in the early afternoon. Due to the change in winds, fire behavior increased causing it to move past the established trigger point. The Nanook crew and smokejumpers began firing operations in cooperation with bucket work from helicopter 580. Personnel were able to secure wrapping the corner of the allotment and will continue securing the northwest corner tomorrow. The fire perimeter was updated due to better mapping.

White Mountain T2IA crew continued to contain the southern edge of the fire working west from their anchor point at a lake located just southeast of the fire perimeter. TCC T2IA crew secured their anchor point in vicinity of H-45. Fire Bosses were used to support both crews efforts to contain their respective sections of line. Northstar crew assisted with the preparation of equipment for demobilization. A community meeting was held in Venetie to discuss the current fire situation and the fuel break work that has been completed around the village.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
