The fire received .25 inches of rain steadily over the course of the day. Due to this inclement weather, firefighters did not engage directly. They continued to monitor the fire and utilize a T2 helicopter to remove backhaul from the fire to Venetic Staging to reduce the risk of negative wildlife encounters. Tomorrow, firefighters will continue to mop-up and improve line around the allotment and monitor the Coal Creek drainage to the southwest corner of the fire via drone operations and recon flights.

Perimeter updated utilizing Sentinel-2 imagery. Clouds and smoke continue to obscure the satellite imagery, however this partial perimeter update should more closely reflect the extent of the fire. Note that when a clear image of the fire is available the acreage may be adjusted again.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
