New Acres: 4.3

Daily Report From: 06/18 1.0 Acreage On 06/18
PQ1L Lat: 64 13.3867 Status: U/U Acres: 1.0 Option: Limited
Lon: 152 03.6233 Start Date: 06/18 Area: TAD
Owner: BLM Unit: AKCYD-Central Yukon Field Office
Name: Kuskokwim River Cause: Lightning

Fire was reported by a citizen on the ground. Because the report was received late in the day, fire resources were unable to make direct observations. Area will be monitored as conditions allow.

Daily Report From: 06/18 3.0 Acreage On 06/18
PQ1J Lat: 64 24.3400 Status: U/U Acres: 3.0 Option: Limited
Lon: 157 42.7267 Start Date: 06/18 Area: GAD
Owner: USFWS Unit: AKINR-Innoko National Wildlife Refuge
Name: Eddy Creek Cause: Lightning

Caravan 5AT found a new start while ferrying back from St. Marys to Galena, approximately 30 miles SW of Galena, just west of the Kaiyuh Mountains. The fire is reported to be 50% active, burning in black spruce and tussock tundra, and approximately 3 acres. There are two Allotments approximately 1.5 miles NNW of the fire.

Daily Report From: 06/18 0.2 Acreage On 06/18
PQ0F Lat: 66 06.8000 Status: S/U Acres: 0.2 Option: Full
Lon: 145 32.1967 Personnel: 2 Start Date: 06/18 Area: UYD
Owner: ANCSA Unit: AKVLN-Tihteet’aii, Incorporated
Name: Kuranakh Cause: Lightning

Zone detection aircraft 11N observed a fire about 0.2 acres in size, smoldering in tundra and hardwood slash. A response was ordered and J-17 deployed 2 smokejumpers to suppress the fire. Firefighters cut saw line around the fire and piled burning fuels. There has been no fire growth and demobilization is tentatively planned for 6/19.

Daily Report From: 06/18 0.1 Acreage On 06/18
P00Q0C Lat: 59 51.2106 Status: U/U Acres: 0.1 Option: Modified
Lon: 144 30.0720 Start Date: 06/18 Area: CGF
Owner: USFS Unit: AKCGF-Chugach National Forest
Name: Kayak Island Cause: Undetermined

No Night Report
The cooler temperatures brought relief to the fires throughout the planning area today resulting in minimal fire behavior and growth. Fire numbers 206, 239, and 240 are still the only staffed fires. Approximately 70 fire line resources are assigned to these fires including 2 Type 1 hand crews and various overhead. These resources continue to identify and validate known sites that require defensive action along the Kuskokwim and Holitna Rivers and initiate structure protection measures.

Unstaffed fires are being assessed daily by aerial surveillance using satellite imagery or ground reconnaissance. Only two fires (197 and 198) were monitored by air last night, which contributed to the overall increase in acres to the complex. Aniak staging is being established to support current and future resources assigned to the fires.

Total acres reported for the 18 fires is 427,310

188 Hook Creek
189 Nushagak River
190 South Lime Lake / 228 Swift River*
197 Gagarhah River / 198 Stony River*
205 Upper Talarik
206 Aghaluk Mountain
207 Maka Creek
216 Telaquana River
239 Pike Creek / 240 Koktuli River*
244 Door Mountain
245 Kiknik / 246 Titnuk Creek*
247 Dummy Creek
273 Door Creek

* fires have merged
Firefighters continued dry mopping and cold trailing today. The fire is burning deep into the peat layer, which is complicating operations. No fire growth today, and glidepath to demobilization will be reassessed after water is delivered via paracargo tomorrow.

The fire is maintaining a moderate level of spreading and activity. The forestry engines on scene completed structural protection efforts. No structures are actively being threatened at this time. Helicopter 230 did recon missions over the incident as well in order to check on the activity levels. This fire is staffed and uncontained.

Fairbanks 1 crew conducted several formal grids of the fire and found no heat or smoke. They cleared a landing zone and widened the protective perimeter. Demobilization planned for 6/19.

Aerial and ground suppression efforts continued on this incident today. Crews tied in chainsaw lines around the perimeter and a second helispot was established. Minimal spreading of the incident occurred.

Personnel pulled equipment and hose today. CATG was released and demobilized back to Fairbanks. Tomorrow excess equipment will be backhauling and camp will be broken down.

Fire personnel reported cloudy skies with no real moisture today. The fire has interior smoldering in white spruce and are 200 feet inside of the fire line mopping up. The entirety of the fire should be gridded by the end of shift tomorrow with the possibility for demobilization of Vale IHC tomorrow and K-River 1 on Wednesday.

**Structure protection where able. Assessing more structures. Fire is burning in favorable slope and fuel continuity.**

**Fire personnel completed the structure assessment plan at the Nyak Mine site and plan to demobilize 6/19.**

**The fire received rain overnight. Yukon Crew continued structure protection around Medfra and set up pump and sprinklers. Additional personnel continued mop up around structures at Nixon Fork Mine and evaluated burn out areas. N99675 completed one fuel cycle of bucket work on the western flank to cool hot spots.**

**Very little active fire behavior today due to cooler weather. 4 smokejumpers working on structure protection planning and implementation SW of the fire on an identified lodge. Anticipate paracargo order to start implementation. 4 smokejumpers working on recon and implementation on an allotment to the NW.**

**The fire received steady rain last night. N99675 completed a sling mission to remove backhaul. Personnel worked to secure the sawline 200ft in from the perimeter. Potential demobilization planned for tomorrow night or Monday morning. Hose will be left in place for protection.**

**An additional 4 fire personnel were inserted into the fire today for structure protection. Fire personnel observed partly cloudy skies today, with temperatures in the mid 60s and relative humidities around 30. Fire activity was light along the river corridor, but there was some torching in the north. Fire personnel removed hoselays from the northeast corner today, and will continue removing additional hoselays tomorrow and gridding the fire edge for heat.**

4,143.0 Acreage Change Since 06/17

Primary and secondary line are in place and plumbed around St. Marys, Pitka Point and Mountain Village. Full Suppression strategy on the western and eastern flanks where the fire has crossed the Andreafsky River and east fork. Confinement Strategy between the main fork and east fork of the Andreafsky both to the north and south. Point Zone Protection Strategy in the wilderness.
These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.

A short squad from Entiat IHC was mobilized to the fire from 259. They reported a 2.5 acre fire smoldering and creeping in tundra on a flat aspect under partly cloudy skies. Personnel worked the fire through the heat of the day before returning to fire 259 and will return the next day to check the fire.

Forestry personnel checked the fire. No heat or smoke found.

A short squad from Entiat IHC was mobilized from fire 259 today and reported a .25 acre fire smoldering and creeping in tundra and black spruce hardwood mix on a flat aspect.

Forestry personnel checked the fire. No heat or smoke found.

A short squad from Entiat IHC was mobilized from fire 259 today and reported a .25 acre fire smoldering and creeping in tundra and black spruce hardwood mix on a flat aspect.
These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
