### Cause Summary For All Fires (Includes Merged Fires But Not Prescribed Fires)

- **Unknown:** 1 | 84,138.0 Acres
- **Human:** 177 | 1,124.2 Acres
- **Lightning:** 125 | 1,244,310.2 Acres
- **Undetermined:** 44 | 48,727.4 Acres

**Total:** 347 | 1,378,299.8 Acres
Cooper Landing VFD responded to a report of an abandoned campfire, which they found to be two burning logs. E-631 assisted with mop-up and fire was called out.

AFS aerial support, helitack, and forestry units responded to the fire after it was called in at the end of Sawmill Creek on the south west corner of Healy Lake. A load of smokejumpers landed on the fire to start ground suppression and remain overnight. Fire remains a high priority due to numerous cabins being within a mile radius. Fire is reported to be around 6 acres, remains staffed and uncontained by end of shift.

Fire detected by satellite imagery. No aircraft was available to observe the fire directly due to weather conditions. Fire will be monitored.

Public called to report a fire between Davidson Bay and Salt Lake just S. of Kake. Fire is located on Salt point. The fire plots in a Limited management option and no values are at risk.

At 1045 FAA called in a 1-2 acre fire by forty five mile chena hot springs rd. Fairbanks Helicoper 930 and Engine F-63 responded to the area and found a 1 acre fire burning in tundra and grass. Fire is in a Limited suppression management area. The fire will be monitored.
Alaska Black IMT2 (IC Sanford). Air attack continues to monitor fire behavior for Fire 239/240. The fire bosses were used all day to protect values at risk along the Mulchatna River. Resources in and around the Lime Village area are continuing structure protection measures and completed and tested hose lay operations to support future defensive firing operations.

Approximately 109 fire line resources are assigned to the complex including {2} Type 1 hand crews (Pioneer Peak and Winema) and various overhead. Pioneer Peak will return to shift tomorrow. {1} Type 2IA hand crew (Gannett Glacier) is also assigned to the complex. These resources continue to identify and validate known sites that require defensive action and initiate structure protection measures, as needed. Fires are being assessed daily by aerial surveillance or satellite imagery or ground reconnaissance. Aniak staging is in place to support current and future resources assigned to the complex. Plans are continuing for a small staging area out of Illiamna to support fires 239/240 and 205.

Total acres reported for the 18 fires is 560,725

189 Nushagak River
190 South Lime Lake / 228 Swift River*
197 Gagarhah River / 198 Stony River*
205 Upper Talarik
206 Aghaluk Mountain
207 Maka Creek
216 Telquana River
239 Pike Creek/ 240 Koktuli River*
244 Door Mountain
245 Kiknik / 246 Titnuk Creek*
247 Dummy Creek
273 Door Creek

* fires have burned together

This complex is comprised of 6 fires, for a total of 27,379 acres.

310--Tanana River
312--Bitzshitini
315--Chitanana
327--Hutlinana
343--Dragon
366--Oval

Size updated from most recent imagery. This fire has been incorporated into the Bean Complex.
### Part of the Bean Complex

**PQ63**
- **Lat:** 64 50.9983
- **Status:** U/U
- **Acres:** 257.2
- **Option:** Limited
- **Start Date:** 06/21
- **Owner:** ANCSA
- **Unit:** AKDYN-Doyon, Limited
- **Name:** Dragon
- **Cause:** Lightning

Size updated from most recent imagery. This fire has been incorporated into the Bean Complex.

Personnel reported muggy weather with calm winds and smoke. Crews from one area on the fire worked on establishing a saw line and getting the hose lay connected. A second area worked on a recon mission for cabins and started prepping. Four smokejumpers were demobilized during the operational period and five to six additional smokejumpers will be demobilized during the afternoon of 6/27. The containment at the end of shift was 40%.

**PDPQ63**
- **Lat:** 65 00.9000
- **Status:** S/U
- **Acres:** 338.6
- **Option:** Full
- **Start Date:** 06/20
- **Owner:** State
- **Unit:** AKDNS-AK Dept. Natural Resources
- **Name:** Hutlinana
- **Cause:** Lightning

Smoke settled over the fire, limiting visibility to 1 mile with a 500 foot ceiling. The weather was cool and smokey with a cloud inversion lifted in the afternoon and highs and lows of 70 and 30 degrees. Around the north cabin, the fire has progressed within one mile and is backing towards structure to the south. The group worked on prepping cabins one and two as a scouting group located 5 additional cabins. On Allotment #4, low fire activity was reported and crews worked to clean up pockets of heat. Additionally, the last crew was unable to see what the fire behavior was like due to poor visibility but continued to work on the fire.

**PDPQ3J**
- **Lat:** 64 52.5183
- **Status:** S/U
- **Acres:** 13,363.3
- **Option:** Limited
- **Start Date:** 06/19
- **Owner:** State
- **Unit:** AKDNS-AK Dept. Natural Resources
- **Name:** Chitanana
- **Cause:** Lightning

The fire experienced 80 degree temperatures and had smoke settle that limited the visibility to only 3 miles. Personnel on the fire conducted more structure protection, tweaking the sprinklers and have plans to get a line in place around the house during the next operational period.

**PDPQ26**
- **Lat:** 64 33.3367
- **Status:** S/U
- **Acres:** 8,537.5
- **Option:** Limited
- **Start Date:** 06/19
- **Owner:** State
- **Unit:** AKDNS-AK Dept. Natural Resources
- **Name:** Bitzshitini
- **Cause:** Lightning

Fire transferred to UYT, Bean Complex.

**PNPQ3H**
- **Lat:** 61 01.6500
- **Status:** U/U
- **Acres:** 6,315.0
- **Option:** Full
- **Start Date:** 06/19
- **Owner:** State
- **Unit:** AKDNS-AK Dept. Natural Resources
- **Name:** Tanana River
- **Cause:** Lightning

Fire transferred to UYT, Bean Complex.

### Part of the Lime Complex

**PQ3H**
- **Lat:** 64 54.5100
- **Status:** U/U
- **Acres:** 6,315.0
- **Option:** Full
- **Start Date:** 06/19
- **Owner:** State
- **Unit:** AKDNS-AK Dept. Natural Resources
- **Name:** Tanana River
- **Cause:** Lightning

Aerial recon today. No smokes showing.
Aerial recon today. No smokes showing.

Decent movement on all sides of the fire. Fire has potential to have active fire behavior.

AA reports fire active on all sides, of note the NW and W side, values there have protection measures in place, and personnel monitoring the fire. Resources accounted for on fire 240.

A recon of the fire was completed, this fire is 0% active with no smokes observed.

No new information today.

No new updates today.
The fire reported no new movement on the north and west sides and has held one mile from the river. There was movement on the east side of the fire, bringing the total acres to 650. The most active edge is on the southern end where it is backing. Personnel plan on hiking from Sunset Creek about 1 mile to see how the activity looks during their 6/27 operation period.

Mop up and green grid are completed; internal grid partially completed. Internal gridding and pulling hose will continue tomorrow. Calling the fire contained and controlled at this time.

Aerial reconnaissance maps this fire at 9,236.7 acres and growing. The type 3 incident management team took over operations on the fire today. Evacuation plans have begun to prepare the local community for the potential threat to residences if the activity levels remain at critical levels.

Due to heavy smoke in the area, the fire was socked in with 3 to 4 miles of visibility. Weather over the fire was around 70 degrees with winds out of the S/SW, roughly 3-5 miles per hour. Personnel on scene continued to mop up and seek and destroy the grid. Over the whole fire, only 12 smokes were found and were mopped up. 100% containment will be issued on this fire at the end of shift on 6/26 and a demobilization plan for 8 smokejumpers will be issued on 6/28.

Anderson subdivision and Kobe Ag subdivision were placed under "go" evacuation level. Fire behavior included spotting and torching in denser black spruce areas. Majority of fire is burning in open black spruce and tundra.

Incident objectives include point protection for structures along the Tetlanika. Assessment and triage of the Kobe Ag subdivision and Anderson. Direct suppression efforts on north flank include hand line, saw line, and hose lay. Also adding dozer line North of Kobe Ag subdivision.

The fire was socked in with smokey conditions. Personnel on the fire completed a grid of 300 feet and the fire is being called 100% contained as of the end of shift. The incident is planning on a demobilization effort on 6/27.
No change in acres. 95% contained, currently removing hose around the fire and one chain mopped up on the edge and mopping up hot spots interior where appropriate. Arctic Circle pullout is open but the campground is still closed anticipated full move out in 24-48 hours of all resources and cashe and supplies.

Helitack, the crew, and Forestry units worked the incident today to continue fire suppression efforts. There was minimal growth.

Crews continued to identify and validate allotments that need defensive action along the Mulchatna and Koktuli Rivers. Active fire behavior. Fire bosses working along the SW corner all day.

Assisted north point protection group on structure validation and defensive preparations. Very little fire movement today.

Suppression repair operations are currently underway. Backhaul of equipment is ongoing. Prepared to implement Point Zone Protection strategy in the wilderness.
These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.

The Duty Officer received a report of a wildland fire on Old Dump road afterhours on Saturday 06/25/2022. Two Forestry engines responded to find a smoldering fire about 0.2 acres. Personnel secured the edge of the burn with hose lay and cooled the edge to hold for the night. On Sunday three Forestry engines returned to the fire to continue mop up. Personnel on scene worked on eliminating snags around the perimeter as well as work to put out hotspots.

A reconnaissance flight of the area maps the fire at 256 acres. There is activity that projects a good potential for growth. This fire will remain monitored by Forestry.
These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.

Daily Report From: 06/26

**PM9B**
- **Lat:** 65 05.8410
- **Lon:** 141 38.3700
- **Status:** U/U
- **Acres:** 0.1
- **Start Date:** 05/20
- **Owner:** NPS
- **Unit:** AKYCP-Yukon-Charley Rivers National Preserve
- **Cause:** Lightning

N-9011N did reconnaissance over the fire. Fire has a 10% active perimeter. Fire is smoldering and creeping in an old fire scar.

Daily Report From: 06/26

**PM9D**
- **Lat:** 65 01.5850
- **Lon:** 141 14.8017
- **Status:** U/U
- **Acres:** 25.8
- **Start Date:** 05/20
- **Owner:** ANCSA
- **Unit:** AKDYN-Doyon, Limited
- **Cause:** Lightning

N-9011N did reconnaissance over the fire. Fire has a 5% active perimeter mostly smoldering and creeping in the original perimeter.

Last Report: 06/19
