899 Name: **Anderson Complex** Cause:

This Complex includes: 58,933 acres combined in the following fires.

297---Kobe Road
 289---Nenana River 2
 288---Nenana River
 285---Birch Creek
 257---Teklanika
 325---Shores Landing
 286---Bear Creek
 287---Rock Creek

With the continued scattered moisture along with higher minimum RH's and excellent overnight recoveries, smoldering and creeping were the dominate fire behavior across the complex. There was some group torching experienced during the afternoon. This week will bring cooler temperatures and higher RH's with a possibility of afternoon thunderstorms, which will continue to tamper fire behavior. Threat to values at risk remains but is reduced. Resources continue to secure hot spots and the fire edge around structures and continue to secure line around allotments. Suppression Repair has begun and will continue through the week. The fire will transition back to the local unit on August 20, 2023.

Most of the lined area on the East and South portions of the fire are being gridded for hot spots. Further containment effort on the Southwest corner of the fire is required and will continue for several more days. Some structure protection equipment has been removed and this will continue in additional areas. Repair work of contingency dozer line has also begun. Closure orders in the White Mountain area will be re-evaluated.
