899 Name: **Anderson Complex** Cause:

This Complex includes: 58,933 acres combined in the following fires.

297---Kobe Road
 289---Nenana River 2
 288---Nenana River
 285---Birch Creek
 257---Teklanika
 325---Shores Landing
 286---Bear Creek
 287---Rock Creek

The scattered showers with breezy southwest winds and higher RH recoveries resulted in smoldering and creeping fire behavior across the complex. Minimal spotting and torching was mitigated by the showers. This week will bring seasonal temperatures, higher RH's, southwest winds around 3-10 mph and a possibility of widespread to scattered showers which will continue to tamper fire behavior—smoldering, creeping and single tree to group torching. Threat to values at risk remains but is reduced. The threat to the Anderson-Nenana Group is eliminated. Primary threats would be along the south side Teklanika River corridor and west of the Seventeen mile slough from the Teklanika and Shores Landing fires. Suppression repair has been completed. The fire will transition back to a local Type 3 Organization on August 20, 2023 at 0800.
