XXX	Name: Knob Hill	Cause: Human	

AST reported a fire in Anchor point, off Knob hill. K 60, K-71 and E-4 responded at the request of WESA. There were two large brush piles that had been started and due to the location, WESA could not access it with their bigger apparatus. The fires were burning in slash and grass and had potential to spread further. Forestry laid a hose lay around both piles and suppressed any active flame and smoldering. Fire was contained and controlled at 0328. Fire will be checked at a later date for activity.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
