Fire behavior was moderate today due to strong winds (gusts to 35). Crews have secured roughly 50' of depth along most of the line in the 5 Mile cabin group. Operational tempo slowed a bit today due to safety concerns associated with high winds and shallow-rooted trees. A module staffed several lookouts and assisted with aviation missions. Engines patrolled the Richardson Highway on the north end of the fire in anticipation of increased SW winds.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
