Globe Complex – Sunday started off quite chilly with temperatures as cold as 42 degrees over Wickersham Dome. The fire received wetting rain for the fourth day in a row with between 0.1” and 0.25” of rainfall over the fire. As a result, we are executing a plan to finalize protection measures, document assessment data, and gradually downsize our organization over the next week.

Evacuation level remains at READY for residences from MP 18-65.

DOT temporarily repaired the road at MP57 and are utilizing one lane and pilot cars to facilitate traffic flow.

Minimal fire behavior today, stringers of spruce in interior will continue creeping and smoldering. Blowdown and jackstraw of trees and vegetation adjacent to the perimeter will continue to be an issue. Crews continued reinforcing lines on North and East flank and will tie into natural barriers. Interior areas of unburned vegetation in close proximity to the primary line are being identified and mitigated as necessary. Acres increased to 432 due to better mapping, no new fire growth, containment remained at 31%. Denali National Park and Preserve Headquarters remains closed and in the Ready status although housing units within the park are being repopulated.
