At 1400 hours Matcom notified Forestry that there was a clump of trees on fire on the south side of the Glenn Hwy near mile post 164. Structures were reported to be within a half mile of the fire. Forestry personnel and helitack responded to the fire along with GlennRich VFD personnel and Troopers. Fire fighting efforts were complicated by a power pole within the clump of trees. Once power to the pole was confirmed off, personnel engaged the fire. Conditions were too windy for helitack for bucket drops, but ground personnel were able to call it contained and controlled at 1811.

Personnel observed increased fire behavior on the northwest side of the fire due to hot and dry conditions with increased winds. As current objectives have been met, full demobilization of all resources is planned in the next operational shift.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
