The fire received higher temperatures and lower humidities today. Crews continue to mop up along the Dalton Highway, Trans-Alaska Pipeline, Hovercraft Road, western and southern flanks of the fire. The eastern edge of the fire remains uncontrolled and crews are establishing indirect handline. Air resources will continue to slow fire spread to the east and southeast edges of the fire if necessary allowing crews to construct indirect line to the Yukon River and burn out when conditions are favorable. A warming and drying trend is predicted until Friday night when precipitation is predicted through Sunday.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
