Report of a brush/grass fire on Kodiak near Lake Miam came in last night (6/5) at 2225. Due to the time of day, we were not able to respond. This morning made arrangements for OAK to check fire out. A/A was 5 minutes out and was able to see smoke. When on scene estimated 4 acres burning in patchy grass, brush and mixed hardwoods. There was plenty of water around the area. Winds were 3-5 north, no resources or structures threatened. OAK requested for frequencies for ground resources ( coast guard fire was on scene). Arrangements were made for 4 DOF resources to fly down and tie in with a CWN helicopter. Meanwhile, T-540 was requested to drop a load of retardant on the head of the fire to slow it's progression in the grass and give more time for DOF resources to get there. Both T-540 and OAK were released back to PAQ. 4 DOF resources arrived at 1926 and 309MH started bucket work. All co-operators were released.
