Fire activity increased since the first report on 7/21. Acreage increased to approximately 3,500 acres. IC ordered two type 2 IA crews, two firebosses, two helicopters and air attack to help control growth from spreading to the allotment and for structure protection. Aircraft was unable to shuttle all crew resources to the helispot due to decreased visibility from smoke. Plan for the next operational period is to shuttle remaining IA crewmembers as weather allows and perform burnout operations, along with pump/sprinkler setup around the structures.

Personnel on the fire saw a decrease in fire behavior today. The fire area was in a Red Flag Warning area, however cloud cover and sporadic wetting rains reduced fire behavior to smoldering and creeping. Firefighters continued cabin protection, assessing potential values at risk, and flying H-6094E for fire reconnaissance.
