Weather over the fire was sunny at the time of report with dark, storm clouds all around. Fire behavior moderated due to precipitation that occurred over the fire area. The Nanook crew and smokejumpers continued to secure and mop-up around the western and northern sides of the allotment.

White Mountain crew continued to contain the southern edge of the fire working east to west from their anchor point at a lake located just southeast of the fire perimeter. TCC crew relocated to the southern edge of the fire in vicinity of H-35 and began containing the fire from east to west. Approximately 20% of this southern edge has now been contained. The North Star crew was demobilized off the fire, and today also marked the crews last day on a fire assignment before they disband later this week for the fire season. Two UTVs were backhauled from Venetie to Fort Wainwright.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
