The Matsu Area Duty Officer was notified early in the morning about heavy smoke in the area of Jonesville road in Sutton. Firefighters responded to the area but were unable to locate anything. Additional intel in the morning lead to the discovery of an active coal seam that had spread into the wildland. Resources on scene extinguished the fire and put in a scratch line and hose lay around coal seam. The coal seam was continuing to put out a significant amount of heat and will be monitored throughout the summer.
