This Complex includes: 10,424 acres combined in the following fires.

297---Kobe Road
 289---Nenana River 2
 288---Nenana River
 285---Birch Creek
 257---Teklanika

Hot and dry conditions will persist over the fire complex through the weekend resulting in increases in fire behavior. The Teklanika River Fire, Birch Creek fire, and the Pilot Fire were active but smoke limited crown fire activity during the afternoon hours. Resources continue to assess values at risk and implement structure and point protection.

The fire spread an estimated 500 acres to the ESE into the Caribou Drainage behind the Haystack Subdivision. The east flank is burning towards the 2021 Haystack Fire Scar and is now estimated to be 2000 acres. Aerial resources held the fire in check as ground forces moved into place. Personnel include the Big River Alaskan contract handcrew, a strike team of 4 engines, 3 dozers, and a water tender. A/A, Air Tankers, Super Scoopers and 3 Fire Bosses worked the fire and completed missions throughout the day. At approximately 1500, west winds pushed spot fires over a portion of the line to the east. Dozers constructed fireline from the saddle below the prominent ridge to Caribou Creek. Dozers connected existing two track roads and previously constructed fuel breaks to natural barriers. Tactical supplies needed to implement the Haystack Subdivision structure protection plan began to arrive. Information sign boards were placed at the Haystack Subdivision entrance and the Hilltop Gas Station.

EVACUATIONS: Due to the Lost Horse Creek Fire activity, a GO! evacuation status remains in effect for the Upper Haystack Drive, including Sharmon Court and all of the Middle Fork Rd in the Haystack Subdivision.

August 4th, Alaska's Type 2 Green Incident Management, under the leadership of Incident Commander, Peter Butteri, will assume command of the fire.

Fire exhibited extreme fire behavior today with group torching, individual torching and spotting. Critical needs are going to be a type 2 crew needed to cover the current crews days off that are coming up, along with aerial resources when asked for, such as FBs or scoopers, and a boat within the next couple of days to insert sprinklers for structures that are threatened to the north. Concerns are also the pipeline to the west. Resources are working to hold what they have completed already at mile 9 of the Pogo Mine road.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
