PNQF99 Owner: **State** Unit: **AKDNS-AK Dept. Natural Resources**
899 Name: **Anderson Complex** Cause:

This Complex includes: 58,933 acres combined in the following fires.

297---Kobe Road
 289---Nenana River 2
 288---Nenana River
 285---Birch Creek
 257---Teklanika
 325---Shores Landing
 286---Bear Creek
 287---Rock Creek

With the recent moisture along with higher minimum RH's and excellent overnight recoveries, smoldering and creeping were the dominate fire behavior across the complex. The warmer temperatures today in the afternoon did bring about some isolated torching. This week will bring cooler temperatures and higher RH's with afternoon showers, which will continue to tamper fire behavior. Threat to values at risk remains reduced. Resources continue to secure hot spots and the fire edge around structures and continue to secure line around allotments. Suppression Repair has begun in some areas and will continue through the week. Evacuation Areas for the Rose Hip Creek and Clear Sky subdivision has been changed to "Set" status.

Efforts are focused on direct containment efforts on the southern and southeast portion of the perimeter. An indirect contingency line has been completed from the southwest corner of the fire west to the Elliott Highway to protect Allotments and residences. Another indirect check line is being implemented west of the fire and north of the Elliott Highway to keep fire out of a steep and narrow section of the Highway corridor. Contingency line construction east of Haystack Mountain is also occurring. Fire spread to the north threatens few values and will be monitored. Site protection is in place for two BLM public use Cabins in the White Mountains and an area closure is in place. The Agencies are providing turn-back specifications, a repair plan and an updated WFDSS decision. Most of the resources necessary to meet protection objectives are already assigned to the incident, however additional orders will need to be placed for repair equipment once the fire is secure.

Fire showed considerable activity today, on the SW corner near Quartz lake. Scoopers and fire bosses and air tankers were used in the afternoon as the fire moved toward Quartz Lake and nearby structures, driven by west winds. An additional IHC was ordered to support suppression operations in that area.

These fires are currently in monitor status. Monitoring schedules are based on defined timeframes, but are dependent on available resources, and weather conditions. When monitoring occurs, information will be updated.
