

## Accessing IROC

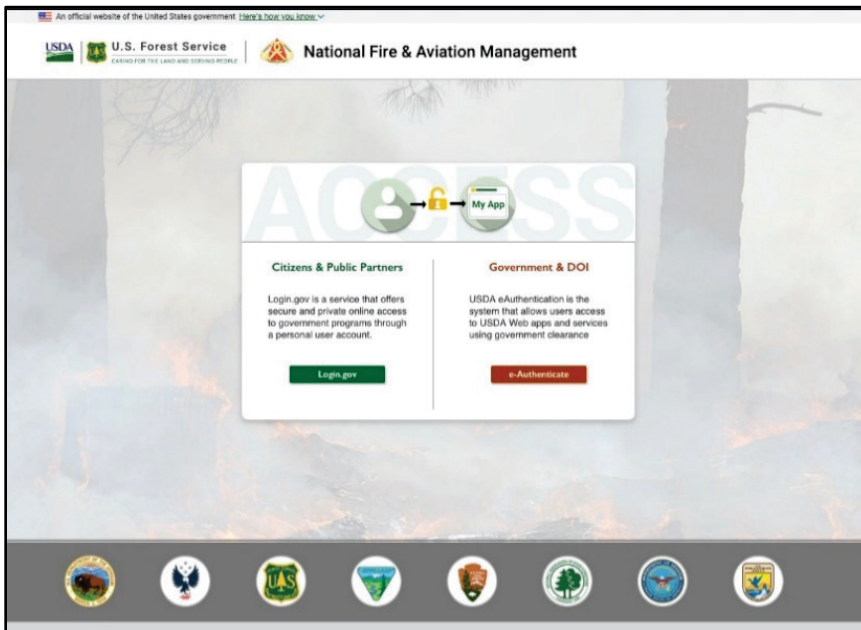

This document provides detailed information on the steps for getting access to IROC.

### Five Steps to Getting IROC Access

- 1 Authenticate** – Go to <https://iwfirp.nwcg.gov> and click either eAuth or Login.gov, depending on which one you have. If you have both, use eAuth.
- 2 Select IROC** – Select IROC from the FAMIT Dashboard of available applications.
- 3 Request a NAP** – If you don't have an existing NAP account, you'll need to request one at this point. If you already have a NAP account, skip this step.
- 4 Request Access** – If you don't have an existing IROC account, you'll need to request one at this point. If you already have an IROC account, skip this step
- 5 Access IROC** – When you get to this step, you'll be logged into IROC directly. If you don't see the IROC portal, you'll need to ask your dispatch manager to grant you the appropriate access.

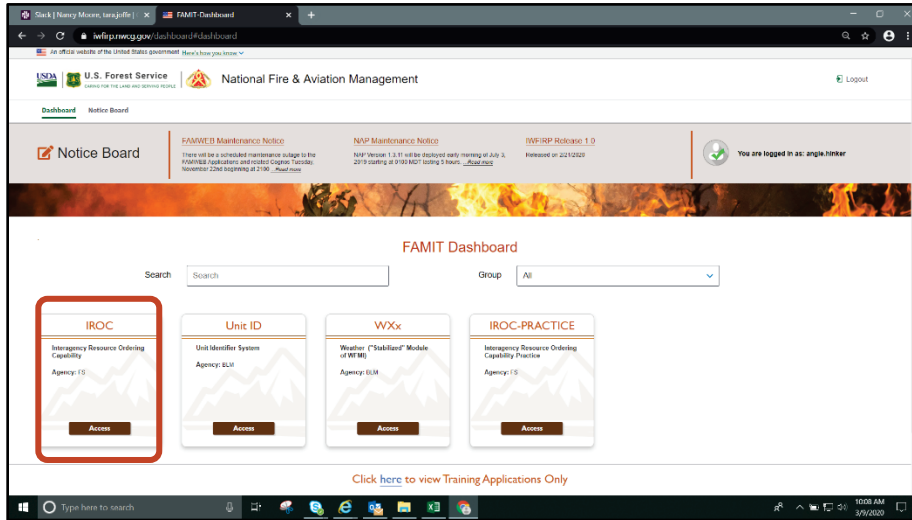

### 1 Authenticating into the FAMIT Dashboard

FAMAuth is an authentication portal for Fire and Aviation Applications. IROC uses FAMAuth to authenticate users when logging in. There are two paths of authentication: e-Authentication (eAuth) and Login.gov. The URL for FAMAuth is <https://iwfirp.nwcg.gov/>.

- If you have a federated PIV card (Lincpass), use the eAuth method.
- If you do **not** have a PIV card, use Login.gov.
- If you have both an eAuth account and a Login.gov account, use eAuth and your PIV card to authenticate. Even if a PIV card reader doesn't exist, you can use your eAuth username and password to access applications.
- DOI users need to register their PIV card with ICAM. See [DOI User Instructions](#) at the end of this document

## 2 Selecting IROC from the FAMIT Dashboard

- 1 After logging in, you will see the FAMIT dashboard showing all available applications. Click on the IROC tile to launch the application.
- 2 The first time you click on the IROC tile, you will be asked to enter your Standard NAP Account credentials in order to link the FAMAAuth account to the NAP account.

**Note:** If you do not have a NAP account, see [Requesting a NAP](#). If you do, skip to [Requesting Access to IROC](#).
